

Dear Authors,

Greetings from the ACRS 2026 Conference Secretariat!

Congratulations once again on the acceptance of your abstract for presentation at the **47<sup>th</sup> Asian Conference on Remote Sensing (ACRS 2026)**.

As the conference progresses to the next stage, we encourage all accepted authors to submit a **Full Paper** for inclusion in the conference proceedings. A full paper provides an excellent opportunity to present your research in greater detail and maximize its visibility within the scientific community.

However, we understand that, in certain circumstances, authors may not be able to prepare a full paper. In such cases, you may alternatively submit an **Extended Abstract** of 2-4 pages for your accepted work.

**Download Full Paper/Extended Abstract Templates:** [Click here](#)

**Submission Details:**

- **Preferred Submission:** Full Paper
- **Alternative Submission (if required):** Extended Abstract (as per the format)
- **Submission Timeline:** 28<sup>th</sup> July Onwards

While we strongly encourage authors to submit a **Full Paper**, those who are unable to do so may submit an **Extended Abstract** by the above-mentioned deadline. If you choose to submit an Extended Abstract, you can still publish your work in some Journal.

Should you have any questions regarding the submission process or formatting requirements, please feel free to contact the ACRS 2026 Secretariat.

We appreciate your continued support and look forward to receiving your submission.

Kind regards,

**ACRS 0032026 Conference Secretariat**
